# Journal Citation Indicator (JCI)

**0.61**

The Journal Citation Indicator (JCI) is the average Category Normalized Citation Impact (CNCI) of citable items by a journal over a recent three year period. The average JCI in a category is 1. Journals with a JCI of 1.5 have 50% more citations than the average in that category. It may be used alongside other metrics to help you evaluate journals. [Learn more](#)

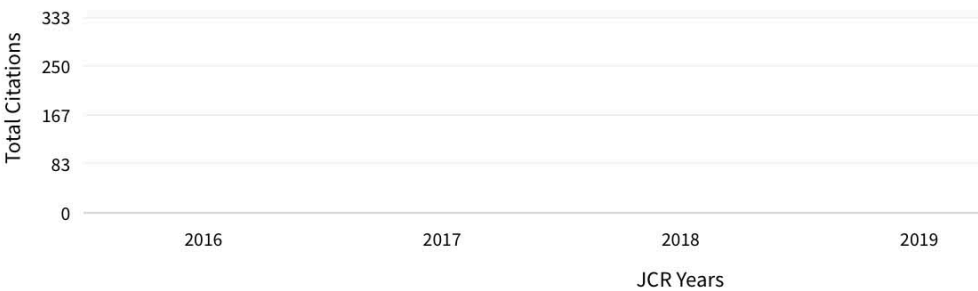

# Total Citations

**333**

Export

The total number of times that a journal has been cited by all journals included in the database in the JCR years 2016-2019. The JCR are compiled annually from the JCR years combined database, regardless of which JCR edition lists the journal.

[View all years](#)
